### 1 Product Identification

1.1 Trade Name: Anti-Rust Paper  
1.2 Company Name:  
Distributor: Cromwell Tools  
Telephone: +44 (0) 116 2 888 000  
Web: [www.cromwell.co.uk](http://www.cromwell.co.uk)  
  
Manufacturer: MetPro Ltd  
Ballinorig Business Park  
Tralee, Co. Kerry, Ireland  
Telephone: +353 (0) 66 7181055  
Fax: +353 (0) 66 7181172  
1.3 Responsible Person: [louise.diggins@metprogroup.com](mailto:louise.diggins@metprogroup.com)  
1.4 Intended Use: Anti-Corrosive Packaging

---

### 2. Hazards Identification

Primex VCI Paper is classified as a non-irritant according to ISO 10993-10:1995(E). Vapour is not

***considered to be harmful.***

---

### 3. Composition/Information on Ingredients:

Proprietary formulation containing amine salts of organic acids and  
***chelating agents impregnated onto paper. The formulation is nitrite free.***

---

### 4. First aid measures:

Skin contact: If irritation or rash occurs, wash skin thoroughly with soap and water. If necessary, consult a doctor.  
Eye contact: Should irritation occur, Flush eyes with water for at least fifteen minutes. If symptoms persist, consult a doctor.

---

### 5. Fire fighting Measures:

Suitable extinguishing agents: Carbon dioxide, foam water spray fire fighting agents.  
Special exposure hazards: In case of fire, product will burn and may give off noxious gases .g. carbon and nitrogen oxides.  
Protective equipment: Fire fighters should wear self-contained breathing apparatus and protective clothing.

---

### 6. Accidental release measures:

Measures for environmental protection: N.A.  
Clean-up measures: Dispose of in accordance with local regulations for paper.

---

### 7. Handling & Storage:

Handling: Handle in accordance with good industrial hygiene and safety practice.  
It is recommended that rubber or plastic gloves be worn for individuals with sensitive skin and when packing metal parts to protect from contamination.

Storage: Protect large quantities of paper from fire. Keep in original undamaged wrapping until needed and stored away from extremes of temperature and humidity.

---

### **8. Exposure Control & Personal Protection:**

#### **Exposure limits**

None established

#### **Personal Protection Equipment:**

Hand/Skin: It is recommended that rubber or plastic gloves be utilised for sensitive skin and when packing metal parts to protect from contamination. The material of gloves will be determined on the sensitivity of the individuals skin. As the product is a preparation of several constituents, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to application. The end user of this product should therefore satisfy himself or herself that adequate hand/skin protection is being adhered to.

#### **Respiratory Protection:**

If ventilation is inadequate - wear full-face respirator with organic vapour cartridge, whilst ventilation is being improved.

---

### **9. Physical & Chemical properties:**

Form: Primex Coated Paper

Odour: Slight

Heavy Metals: None.

---

### **10. Stability & reactivity:**

Conditions to be avoided: Strong acids, alkalis and oxidizing agents  
Sources of heat

Dangerous products of decomposition: Oxides of carbon and nitrogen.

---

### **11. Toxicological information:**

Acute Toxicity: Not evaluated

Primary Irritant Effect: Non-Irritant according to ISO 10993-10:1995(E)

Sensitization: None

Other toxicological information: Nitrite Free

---

### **12. Ecological information:**

Active ingredients are readily biodegradable and should be easily removed in wastewater treatment facilities.

---

### **13. Disposal considerations:**

Dispose of in accordance with existing National and Local Environmental regulations for paper.

---

### **14. Transport information:**

Not classified as hazardous for transport. Keep dry and store in a cool place.

---

**15. Regulatory information:**

Designation according to EC guidelines:

The product has been classified as a low hazard material.

Avon Wax Paper meets the requirements of 2001/62/EC for packaging and packaging waste.

---

**16. OTHER INFORMATION:**

Anti-Rust Paper is designed for use as anti-corrosion packaging product and is only classed as low hazard if used for this purpose.
